AI Model IDs Reference Guide

Comprehensive Model ID Listing by Provider – March 2026

This document provides accurate, verified model IDs for four major AI providers: **Anthropic (Claude)**, **Meta (Llama)**, **Mistral AI**, and **Amazon (Nova/Titan)**. All IDs are sourced from official provider documentation and are current as of March 2026.

---

1. Anthropic (Claude)

Claude 4.x Series – Latest Models

Claude Sonnet 4.6 (Latest flagship mid-tier model)[cite:534][cite:541]

- **Model ID (Claude API):** claude-sonnet-4-6
- **Model ID (AWS Bedrock):** anthropic.claude-sonnet-4-6
- **Model ID (GCP Vertex AI):** claude-sonnet-4-6
- **Context Window:** 200,000 tokens (1M in some deployments)
- **Capabilities:** Coding, computer use, agent planning, tool calling
- **Release Date:** February 17, 2026

Claude Opus 4.6 (Latest frontier model)[cite:527][cite:536]

- **Model ID (Claude API):** claude-opus-4-6
- **Model ID (AWS Bedrock):** anthropic.claude-opus-4-6-v1
- **Model ID (GCP Vertex AI):** claude-opus-4-6
- **Context Window:** 200,000 tokens
- **Capabilities:** Extended thinking, reasoning, multimodal (text+image), vision

Claude Haiku 4.5 (Fastest Claude model)[cite:527]

- **Model ID (Claude API):** claude-haiku-4-5

- **Model ID (AWS Bedrock):** `anthropic.claude-haiku-4-5-20251001-v1:0`
- **Model ID (GCP Vertex AI):** `claude-haiku-4-5@20251001`
- **Context Window:** 200,000 tokens
- **Capabilities:** Fast, cost-efficient, good for high-volume summarization

Older Claude 3.5 Model (Still Referenced)

Claude 3.5 Sonnet (October 2024)[cite:494][cite:525]

- **Model ID (Claude API):** `claude-3-5-sonnet-20241022`
- **Model ID (AWS Bedrock):** `anthropic.claude-3-5-sonnet-20241022-v2:0`

---

2. Meta (Llama)

Llama 3.3 – Text-Only Flagship

Meta Llama 3.3 70B Instruct[cite:506][cite:539][cite:544]

- **Model ID (Meta API / HF):** `meta-llama/Llama-3.3-70B-Instruct`
- **Model ID (Oracle OCI):** `meta.llama-3.3-70b-instruct`
- **Model ID (NVIDIA NIM):** `meta/llama-3.3-70b-instruct`
- **Model ID (AWS Bedrock):** `meta.llama3-3-70b-instruct-v1:0`
- **Model ID (GCP Vertex AI):** `meta-llama/llama-3-3-70b-instruct`
- **Context Window:** 128,000 tokens
- **Parameters:** 70B (text-only)
- **Capabilities:** Multilingual reasoning, coding, strong instruction following

Llama 3.1 Series – Widely Used

Meta Llama 3.1 70B Instruct[cite:512][cite:515]

- **Model ID (HF):** `meta-llama/Meta-Llama-3.1-70B-Instruct`
- **Model ID (NVIDIA NIM):** `meta/llama-3.1-70b-instruct`
- **Context Window:** 128,000 tokens
- **Parameters:** 70B
- **Capabilities:** Multilingual, tool calling, structured outputs

Meta Llama 3.1 8B Instruct[cite:512]

- **Model ID (HF):** meta-llama/Meta-Llama-3.1-8B-Instruct
- **Parameters:** 8B (smaller, faster)

Llama 3.2 – Vision/Multimodal Series

Meta Llama 3.2 90B Vision Instruct[cite:509][cite:511]

- **Model ID:** meta-llama/Llama-3.2-90B-Vision-Instruct
- **Modalities:** Text + Image (in), Text (out)
- **Parameters:** 90B
- **Capabilities:** Visual question answering, image understanding, OCR

Meta Llama 3.2 11B Vision Instruct[cite:509]

- **Model ID:** meta-llama/Llama-3.2-11B-Vision-Instruct
- **Modalities:** Text + Image
- **Parameters:** 11B (smaller vision variant)

---

3. Mistral AI

Mistral Large Models – Flagship

Mistral Large 2411 (Nov 2024)[cite:497][cite:542][cite:545]

- **Model ID (Mistral API):** mistral-large-latest (alias) or mistral-large-2411 (explicit)
- **Model ID (AWS Bedrock):** mistral.mistral-large-2411-v1:0
- **Model ID (GCP Vertex AI):** mistral-large-2411
- **Model ID (Azure AI):** mistral-large
- **Context Window:** 128,000 tokens
- **Parameters:** 123B
- **Capabilities:** Reasoning, coding, agent planning, function calling, 128k context

Mistral Medium & Small

Mistral Medium 3.1[cite:497]

- **Model ID (Mistral API):** `mistral-medium-latest` or `mistral-medium-3.1`
- **Capabilities:** Multimodal, multilingual, frontier-level reasoning

Mistral Small 3.2 / 3.1[cite:497]

- **Model ID (Mistral API):** `mistral-small-latest` or `mistral-small-3.2`
- **Capabilities:** Low-latency, cost-efficient, multilingual

Mistral Pixtral – Multimodal Vision Model

Pixtral Large 2411 (Vision/Multimodal)[cite:440][cite:462][cite:545]

- **Model ID (Mistral API):** `pixtral-large-2411`
- **Model ID (AWS Bedrock):** `mistral.pixtral-large-2411-v1:0`
- **Parameters:** 124B multimodal
- **Modalities:** Text + Image (in), Text (out)
- **Context Window:** 128,000 tokens
- **Capabilities:** Document understanding, charts, natural images, frontier image understanding

---

4. Amazon (Bedrock)

Amazon Nova – Multimodal Series

Amazon Nova Premier V1 (Highest-capability Nova)[cite:540][cite:543]

- **Model ID (AWS Bedrock):** `amazon.nova-premier-v1:0` (regional format: `us.amazon.nova-premier-v1:0`)
- **Context Window:** 1,000,000 tokens
- **Max Output:** 10,000 tokens
- **Modalities:** Text + Image + Video (in), Text (out)
- **Capabilities:** Complex reasoning, multimodal, highest quality in Nova family

Amazon Nova Pro V1 (Mid-tier Nova)[cite:540]

- **Model ID (AWS Bedrock):** `amazon.nova-pro-v1:0`
- **Context Window:** 1,000,000 tokens
- **Modalities:** Text + Image + Video
- **Capabilities:** Multimodal, balanced performance

Amazon Nova Lite V1 (Cost-efficient Nova)[cite:540]

- **Model ID (AWS Bedrock):** `amazon.nova-lite-v1:0`
- **Context Window:** 1,000,000 tokens
- **Modalities:** Text + Image
- **Capabilities:** Low-cost multimodal

Amazon Nova Micro V1 (Ultra-lightweight)[cite:411]

- **Model ID (AWS Bedrock):** `amazon.nova-micro-v1:0`
- **Modalities:** Text-only
- **Capabilities:** Very low latency, cost-efficient

Amazon Titan – Text Models

Amazon Titan Text Premier V1[cite:519]

- **Model ID (AWS Bedrock):** `amazon.titan-text-premier-v1:0`
- **Capabilities:** Summarization, Q&A, text generation

Amazon Titan Text Express V1[cite:519]

- **Model ID (AWS Bedrock):** `amazon.titan-text-express-v1`
- **Capabilities:** General text generation

Amazon Titan Text Lite V1[cite:519]

- **Model ID (AWS Bedrock):** `amazon.titan-text-lite-v1`
- **Capabilities:** Cost-optimized text

Amazon Titan – Embedding Models

Amazon Titan Text Embeddings V2[cite:507]

- **Model ID (AWS Bedrock):** `amazon.titan-embed-text-v2:0`
- **Use Case:** Vector embeddings for RAG, semantic search

Quick Reference Table

Provider	Model	Model ID	Context	Modality
Anthropic	Claude Sonnet 4.6	`claude-sonnet-4-6`	200K	Text + Image
Anthropic	Claude Opus 4.6	claude-opus-4-6	200K	Text + Image + Video
Meta	Llama 3.3 70B	`meta-llama/Llama-3.3-70B-Instruct`	128K	Text-only
Meta	Llama 3.2 90B Vision	meta-llama/Llama-3.2-90B-Vision-Instruct	128K	Text + Image
Mistral	Mistral Large 2411	`mistral-large-2411`	128K	Text-only (multimodal capable)
Mistral	Pixtral Large 2411	pixtral-large-2411	128K	Text + Image
Amazon	Nova Premier V1	`amazon.nova-premier-v1:0`	1M	Text + Image + Video
Amazon	Titan Text Premier	amazon.titan-text-premier-v1:0	-	Text-only

---

Usage Notes

1. **Model ID Formats Vary by Platform:**
   - **Claude API:** Use simple format like `claude-sonnet-4-6`
   - **AWS Bedrock:** Use prefixed format like `anthropic.claude-sonnet-4-6` or `amazon.nova-premier-v1:0`
   - **GCP Vertex AI:** Use simple format like `claude-sonnet-4-6` or `mistral-large-2411`
   - Always verify exact format in your target service's documentation
2. **Regional Variations:**
   AWS Bedrock sometimes uses regional prefixes (e.g., `us.amazon.nova-premier-v1:0` for US regions). Check the supported models list for your specific region.
3. **Model Availability:**
   - Newer models (Claude Sonnet 4.6, Llama 3.3, Mistral Large 2411, Nova Premier) have broad multi-cloud support
   - Older models may still be available but may be retired (check provider deprecation timelines)
4. **Always Verify Before Production:**
   Model IDs, pricing, and availability change. Consult official documentation:
   - Anthropic: https://docs.anthropic.com/en/docs/about-claude/models
   - Meta Llama: https://www.llama.com/docs/model-cards-and-prompt-formats/
   - Mistral: https://docs.mistral.ai
   - AWS Bedrock: https://docs.aws.amazon.com/bedrock/latest/userguide/models-supported.html
